## **FRAM Industrial to Exhibit at Power-Gen Europe 2014**

**Mansfield, UK April 14<sup>th</sup> 2014** – FRAM Industrial is excited to announce our attendance at this year's Power-Generation Europe show in Cologne, Germany, from June 3<sup>rd</sup> - 5<sup>th</sup>.

FRAM Industrial is the new branding for Eurofilter, which for over 40 years has been a market leader in air filtration technology serving the gas turbine and APC market. We have been offering excellent customer service together with dependable and reliable products to OEMs and end-users alike around the world.

We will feature our exciting new E10 filters, which are designed to offer outstanding efficiency and pressure drop for use in gas-turbine operation. Also, we will demonstrate our Efficiency Loss Calculator which has been designed to illustrate the potential cost savings around fitting E10 filters.

Our sales and technical team will be on hand to discuss individual requirements and take you through our broad product range which covers various applications and environments.

Find us in Hall 6, Booth 6V38. We look forward to meeting you and answering all your questions!

We have started taking appointments for meetings during this 3 day event, so to avoid disappointment, please contact FRAM Industrial Product Manager Mr Stephen Parrish, who will schedule your appointment - +44 1623 412402, [stephen.parrish@framgrp.com](mailto:stephen.parrish@framgrp.com)
